

Collaborative tools for (digital) teaching and learning

Collaborative tools for (digital) learning and teaching

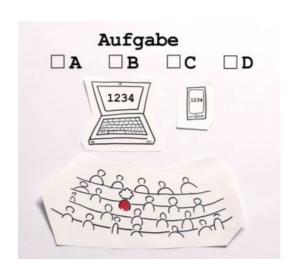

The following tools can come in handy when practicising sociocracy at school or in a digital environment.

For example, you can use them to create surveys to determine in which areas sociocratic elections may be useful or to collect ideas and skills that are needed to assume a specific position (e.g. class representative).

Pingo

- Surveys in real time
- Show results

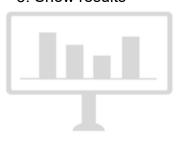

1. Ask a Question

2. Wait for answers
